

API Partners

API services are developed and offered by professional Services Providers companies / organisations meeting EAQG requirements on providing services aiming to deploy the implementation of IAQG initiatives within the Supply Chain through a Partnership agreement.

Partner's services quality are assessed and periodically checked through an oversight made by EAQG organisation through Industry experts.

API Partners as initial ones are:

- **Bureau Veritas** (France)

- **IAT + AENOR** (Spain)

- **Lufthansa Technical Training**

(Germany)

- **SII** (Israel)

Other Partners will join API later on according to the EAQG strategy of services deployment.

Aerospace Performance Improvement

Services network for Aerospace & Defense Supply Chain

API Objective

Supply Chain Performance Improvement

The **goal of API is to provide the entire Aerospace & Defence Supply Chain with services aiming to improve the performance of the Supply Chain.**

The **API services focus on all the best practices developed by the Industry in the frame of IAQG (International Aerospace Quality Group) initiatives.**

API Organisation

API, as the EAQG services platform, **is part of EAQG** (European Aerospace Quality Group) **the Quality community of ASD** the AeroSpace & Defence Industries Association of Europe **and the European sector of IAQG** (International Aerospace Quality Group).

API services are provided by 4 initial Partners.

API Services

Services are provided by API Partners in various geographical areas supporting different languages.

Services are linked to all IAQG initiatives (Deployment of IAQG standards / guidelines) **to increase the robustness of IAQG best practices implementation.**

IAQG initiatives are covering various areas from:

- the **Quality Management System (QMS) requirements**

- 9100 – Aerospace requirements

- 9110 – Maintenance organisations requirements

- 9120 – Stockist Distributors requirements

to specific processes such as:

- 9102 – First Article Inspection requirements

- 9103 – Variation Management of Key Characteristics

- 9104 – QMS Certification / Registration Programs requirements

- 9107 / 9114 – Direct Delivery Authorization / Direct Ship guidances

- 9131 – QMS Non – Conformances

- 9134 – Supply Chain Risk Management

Authorities regulations (Civil, Military), Etc...

Training, Coaching, On site support on these IAQG topics define the API services scope.

(Please check with Partner's capability)
